

Statement for students and parents/ carers regarding BTEC grades

On the evening of 19th August, we received correspondence from the Pearson exam board notifying us that all BTEC grades they had provided to us were to be reviewed.

This correspondence was received too late for us to change the material we had already printed and placed into exam results envelopes. However, we have been informed that all BTEC grades are now subject to a further review and that we will receive an update in due course. We anticipate that this review should be in line with the approach taken nationally for GCSE and A-level grades.

Once we receive further information we will obviously confirm this and communicate with you as quickly as possible.

We can only apologise to you all for any additional anxiety or stress this unfortunate situation may have caused. However, we hope that you can appreciate this very difficult position we have been placed in is completely out of our control.
