BTEC Health & Social Care

What Will You Do?

Studying:

Unit 1 - Human Lifespan and Development (coursework)
Unit 2 – Health and Social Care Service and Values (coursework)
Unit 3 – Health and Wellbeing (exam marked externally by the exam board)

This is a practical course where you will interact with professionals in the field and undertake visits to service providers.

You will gain an understanding of human lifespan development and an appreciation of the importance of health and social care values. You will also gain skills to be able to assess a person’s health and well-being and be able to suggest ways to improve it based on case studies.

How will I be assessed?

You will produce 2 pieces of coursework that is marked by your class teacher and one exam that is marked externally by the exam board.

You will be given class time and homework time to work on your portfolios.

This course counts as one of your option choices.
