

# Choosing your child's Secondary School

## September 2018

**West Coventry Academy has been created on the site of former girls' school Tile Hill Wood. From September 2016 we have welcomed boys as well as girls. This is an exciting time for us - a new beginning.**

**We are proud to build on the best traditions of single-sex education for the core subjects and Physical Education, whilst capitalising on the benefits of a co-educative approach for all other areas of school life. This provides the best possible opportunities for our students to make excellent progress.**
